

Letter to MP

Dear *Name*,

Thank you for your passionate work for our area, I so appreciate your using your voice to make this a happier and safer place for me to live. I am writing to you as part of the Leeds Craftivists.

I hope you like the enclosed bee which I send as a gift. This is because I am passionate about caring for and looking after the green spaces in this area. The bee is one of our all important pollinators and we must create spaces with rich biodiversity for us to have a sustainable future.

I am supporting the RSPB Attack on Nature campaign because I care deeply about.....

Read the seven key areas in [this document](#) and pick out a couple of the specific asks that you care most about and say why.

Thank you taking the time to read this letter and I would love to meet you to further this conversation.

Yours,

Your name

Letter to a local Leeds Business

Dear *Name*,

I am part of the Leeds Craftivists group and we want to see more biodiversity in Leeds City Centre. We believe planters could be an amazing way of encouraging biodiversity in the City Centre if we use the right kind of plants. We are aiming to create a pollinator corridor in the city centre so we see an increase in biodiversity. We know your company cares about climate change and biodiversity loss (*maybe check this out but probably they claim to somewhere on their website*) and this could be a really positive way of making a difference in this area.

We are asking you to consider having a planter somewhere outdoors, perhaps a room or another unobstructive outdoor area.

We wondered if someone on your staff team who is passionate about climate change and biodiversity may be open to a conversation about this. Please let me know.

We have enclosed some wildflower seeds, a QR code to a simple toolkit to create a bee haven in the city and the gift of a small bee to encourage you in this and say thanks in advance.

Many thanks,

Name
